

City of Banning Police Department

LEONARD T. PURVIS
CHIEF OF POLICE

November 1, 2012

There are several former Banning Police Officers that now work (or previously worked) for the McFarland Police Department. To date, there has never been a background investigator who has asked to see any internal affairs investigations that were conducted on former officers who left our department and sought employment with the McFarland Police Department.

I feel the McFarland Police Department is a rogue agency, employing officers who should never wear a badge again and be entrusted with peace officer powers. Their actions erode public confidence and the belief of most citizens that only the "best of the best" should be allowed into the law enforcement profession. The McFarland Police Department has shown that they do not deserve to be a POST accredited police agency.
